

ENGINEER

Location: Huntingdon, Cambridgeshire
Salary: Negotiable, dependant on experience
Sector: Civil Engineering

The role:

Reporting to the Engineering Manager or the Site Manager, the Site Engineer will have a proven record of setting out on projects including earthworks, deep drainage, highways and infrastructure and be capable of producing As-Built drawings of such.

Requirements:

Applicants must be qualified to HNC or Graduate standard with at least 3yrs site experience, they must possess excellent communication skills and have the ability to work under their own initiative with a desire to share knowledge and develop junior members of the team. Applicants will be conversant with all surveying instruments, co-ordinate setting out and be able to work with Autodesk Auto-Cad.

The nature of this work will require you to be flexible in your working hours.

A full clean driving licence is essential.

Package:

We offer excellent conditions of employment including competitive salary and company vehicle.

To apply for this position please forward your CV to j.westerman@breheny.co.uk or for an informal discussion please contact Ray Duffy on 07771 544327
