

Project Manager – East Anglia

We are seeking to strengthen our staff and appoint a Project Manager for the above region.

The successful candidate will be based from our Head Office at Needham Market Suffolk and should have proven experience of managing a wide range of civil engineering projects with values between £2 - £10m. This can include a larger single project or a number of smaller projects. Comprehensive knowledge and experience in a number of fields including highways, structures, infrastructure & groundwork is desired.

The ideal candidate will have the qualifications, knowledge, experience and commitment to deliver projects safely, on time, on cost and to a high standard. You should be contractually and commercially aware and be comfortable in dealing directly with Clients, general public and other stakeholders.

You will report to your Contracts Manager and be responsible for and oversee other staff members including Site Agents, General Foremen, Site Engineers, Directly Employed Labour & Subcontractors.

Your Qualification & Key Skills should include

- CSCS Platinum or Black card
- HNC / HND / Degree in Civil Engineering
- Contractual knowledge of NEC, ICE & JCT Forms of Contract
- SMSTS
- Able to produce Programmes, Method Statements & Risk Assessments
- Experienced in managing large site teams & subcontractors from design stage through to completion
- Strong organisational and communicational skills

Salary - £Negotiable with benefits
